

# IT MADE BEAUTIFUL

## Kinetx Co's Business Phone Solution

Kinetx Co VoIP Business Phone Solution offers unmatched freedom and flexibility to our customers. We work with you to design a phone system that sets you free from unnecessary monthly fees and contracts.

From cost reduction to free add-on features, our system is fully customizable to your business's needs. Add **as many phone system features and extensions** as you need **at no extra cost** increasing your business's productivity and customer satisfaction.

### Reduce Communication Costs

Whatever you are currently paying, we guarantee you'll be paying less with our system. Our advanced cloud technology allows us to offer our clients cost-efficient communications solutions regardless of company-size or growth plans. Our phone system is designed for you to only pay for what you use.

#### Increase Productivity

Our phone features are included in your monthly bill at no extra cost! With a one-time set up fee you can add Voicemail-to-Email notifications, Call Queue, Call Encryption, Missed Call-To-Email notifications, Call Recording and so much more.

#### Solutions By Industry

No two phone systems are alike! Keep your clientele satisfied by offering them an unmatched customer experience. That is why we design your phone system based on your business's industry. We partner with you to build a system that compliments your business operations specifically.
